

The Healing House on Norris Avenue has yet to open, but was given an opportunity today to show our neighbors we will be strong community partners.

After being alerted to troubling footage on the Healing Home's security cameras at 8:46 am, Eldra Jackson III of Inside Circle contacted the Sacramento County Sheriff's Department's North Division due to a break-in at 3235 Norris Ave, Unit B. Jackson relayed to the dispatcher information about individuals breaking into the property that Inside Circle was able to capture via security surveillance footage they had installed on the property. Including providing the make, model, and license plate of an SUV that the trespassers used to access the property. At 9:17 am, deputies called Jackson to confirm the address just prior to their arrival and make certain that the property's security manager would be on site to give them access to the property.

As a result of Inside Circle promptly reporting this to the sheriff's department, law enforcement officials were able to contact the owner of the vehicle, which turned out to be stolen, and she was able to have her vehicle returned to her with minimal to no damage. Law enforcement were also able to go through some of the property the burglars left behind and identify other potential victims. Specifically, they were able to make contact with a female victim who came over to identify some stolen items. She was able to retrieve a sterling silver wedding platter that is a family heirloom that had been passed down from her grandmother's wedding to be used for her mother's wedding and ultimately to be used for her wedding. **With our help and additional cooperation from our concerned neighbor whose property butts directly up against the back of Inside Circle's property, Sheriff's deputies were able to obtain additional information about the suspect who was ultimately apprehended.** Sheriff's deputies believe this suspect may be connected to a rash of burglaries in the area going back over a year. Without the security cameras installed by Inside Circle on their property and the footage, information and responsible reporting they were able to provide to law enforcement, the above mentioned property would still be missing, and a dangerous suspect might still be at large.

If our neighbors were alarmed by the deputies' presence at our Healing Home today, it's important for them to have the details of the disturbance on what is normally a quiet Sunday.

This incident simply shows who we are as neighbors by assisting law enforcement with this break in with what is likely a long standing case. We thank the Sacramento County Sheriff deputies for their work today and are pleased the victims were reunited with some of their stolen possessions.

We also hope that one day, the people committing these crimes in our community will find the help they need to start their own journey of healing and lead lives filled with meaningful service to others.
